Working Experience

Dec 2022 – Present

Junior Frontend Developer   Oliasoft AS, Norway
Part of the team which develops Oliasoft apps, mostly with main app called Welldesign. Add new features and work in different modules within the application. Working using React.js, Redux, Cypress, Jest

Mar 2021 – Present

Junior Developer and Administration Technician   Nærvær AS, Norway
Digital solutions creation. Administration of teachable-based e-learning product. Email automation using python, etc. Administrative automation in python.

Jun 2016 – November 2022

RC Team Leader   Writeloss, Inc, USA (Remote)
Write estimates of losess for contractors, adjusters, and attorneys in the US and Canada. Make estimates which can be for small residential houses or big commercial buildings using the software Xactimate X1. As RC Team Leader, I manage a group of estimators. I'm in charge of delegating and supervising. Also, I'm responsible for the training of novice members.

Developer Personal Projects

Go to Demo

Country Quiz Game   React, Hooks, Sass, Axios
Country Quiz game challenge from devChallenges.io. Helped me to develop understanding about conditional rendering due to different app stages. It consumes the rest countries API. You can find the code in this repository

Go to Demo

Sunnyside agency landing page   HTML, Sass, Vanilla JS
Landing page challenge from Frontend Mentor. Helped me to build a site with different images according to screen size. You can find the code in this repository

Go to Demo

Image Uploader   React, Django
Image Uploader challenge from devChallenges.io. Frontend developed with React and Axios and Django with REST framework as backend, helped me to establish connection between both and handle a simple image upload file. You can find the code in this repository

Go to Demo

Tip Calculator App   React, Hooks, Sass
Tip Calculator App from Frontend Mentor, it works with functional components and hooks. It helped me to understand states handling and useEffect hook. You can find the code in this repository

Education

2017 – 2020

Master's Degree in Structures, Foundations, and Materials Engineering   Universidad Politécnica de Madrid, Spain
Title of the Thesis: "Seismic Performance of Lead Rubber Bearing (LRB) Isolators on Bridges with Reinforced Concrete Flexible Piers". **Linear and non-linear analysis using SAP2000.**

2007 – 2015

Bachelor's Degree in Civil Engineering   Universidad de Carabobo, Venezuela
Title of the Thesis: "Evaluation of steel fibers Dramix® 3D in light concrete with ALIVEN®". **Concrete compressive strength tests.**
